About NimbleRx, a Swoop Company prescription fulfillment platform

NimbleRx is a digital-first prescription management platform designed to remove barriers to consistent care, simplifying access and supporting long-term adherence.

- Represents the No. 3 pharmacy footprint nationwide — aggregating an independent network of over 5,000 pharmacies
- Enables patients to fill, refill, pay for, and manage prescriptions seamlessly
- Drives significant impact with digital interventions that improve medication adherence by 26-40 percent

NimbleRx, a Swoop Company extends this impact into prescription fulfillment — helping patients start treatment without delays and stay on therapy without disruption.

All within a **privacy-by-design** architecture that ensures the highest standards of compliance and trust.

Commercial Solutions

Awareness

Reach patients when they fulfill their prescriptions

Abandonment

Reduce friction from prescription to therapy start

Adherence

Support persistence and long-term patient outcomes
